10 643 697 · 36" x 12 m
10 643 696 · 24" x 12 m
10 643 695 · 17" x 12 m

Digital FineArt Collection: Baryta FB

Baryta FB is an archival photo paper designed for the traditionalists amongst photographers. It has been specially developed at their request and supplements the award-winning Hahnemühle range of baryta papers. The bright white paper with its ultra-smooth surface texture and glossy coating corresponds to a classic baryta media in structure and feel, and its high grammage of 350 gsm. Baryta FB complies with the highest requirements of image quality and longevity just like classic baryta paper.
